THE PROFESSIONAL TRUCK CLEANING LINE OF PRODUCTS.

**Exclusive Shock Series 1 and 2-Step Truck Wash
Presoaks: Keep your fleet clean and shiny!!**

Low pH:

Shockwave HF Fleet Plus: Low pH highly aggressive step one to aid in the cleaning and brightening of aluminum rails and tanks. Extremely effective for removing road film and grime when used in conjunction with a second step detergent such as Aftershock or Liquid Friction. Shockwave HF Fleet contains Ammonium Bifluoride in combination with other essential acids for a super fast clean! Does not have the harsh smell normally associated with HF based products when used at the correct ratios. Do not use on polished aluminum.

Lightning 2X: A cost effective, non-corrosive, low pH, presoak for frictionless truck wash systems. Used as the first step in a two step acid/alkaline wash process. Effective in cleaning aluminum and will help remove road film and brightens chrome and glass. Contains a pleasing "Lemon Scent." Please consult with your representative before using on polished aluminum.

High pH:

Aftershock HPP: Super concentrated single and two step High pH cleaning solution designed to clean larger transportation vehicles and heavy equipment. Quickly removes tough road film, carbon stack stains, diesel residue, grease, and oil from surfaces. Excellent through automated truck wash systems including pressure wash applications. Reclaim compatible.

Liquid Friction: A concentrated alkaline presoak ideal for cost-effectively removing tough road films, soils, and diesel/carbon residues that build up on fleet vehicles. Ideal for pressure washer services or industrial/municipal wash operations. Can be used as a single step or as the second step in a two-step automated truck wash operation.

**Safe Polished Aluminum 1 and 2-Step Cleaners:
Keeps your polished aluminum looking new!!**

PA-1 Citrus Cleaner: Safe concentrated citric cleaner containing wetting agents and emulsifiers to provide maximum cleaning and brightening of polished aluminum and stainless steel. Use with PA-2 as the 2nd step for optimum cleaning efficiency.

PA-2 Polish Wash: Concentrated liquid detergent specially formulated with the highest quality surfactants and solvents to promote rapid emulsification of dirt, grease, and oil safely on all surfaces when used as directed. PA-2 is well suited for safely cleaning polished aluminum and stainless steel. Use with PA-1 Citrus Presoak as the 1st step for optimum cleaning efficiency.

Magic White Concentrate: High alkaline, aggressive degreaser/cleaner designed for the toughest of soils in fleet wash operations including oil change centers. Penetrates the heaviest grease and oils for quick, easy removal.

Clean N' Mean Degreaser: Mild alkaline non-abrasive cleaner designed for low and high-pressure applications. Contains d-limonene for extra grease cutting action. Effectively remove film, grease, oil, and tar on walls, machinery, workbenches, tools and engines. Non-Flammable.

RV Super Cleaner: Designed for use on all RVs, fifth wheels, mobile homes and aluminum siding. Cleans and brightens weathered aluminum and removes those nasty black streaks. Safe on all surfaces when used as directed.

Truck & Heavy Equipment Concrete Cleaner: Aggressive acid cleaner formula effective in removing concrete slurry, splatter and residue from cement trucks, concrete handling equipment, forms and tools.
